

Welcome to Zombie Apocalypse Tactical Laser Tag. To begin, you'll receive a brief orientation from one of our Forge staff members. You'll be handed your battle weapon, and split into 2 teams. There are 3 game modes in the Zombie Apocalypse.

The first game mode, you are battling not only the undead, but the other team. Take down as many zombies and opponents as you can to win the game! In the second game mode, you're battling it out for the most points in a "King of the Hill" style game. Take down your opponents, grab as many points as you can, and don't get eaten by the zombies! The final game mode is Humans vs. Zombies. If a zombie shoots you and succeeds, you'll join the ranks of the undead and turn on your human teammates. Those who aren't turned into zombies win the game and bragging rights! But if everyone is turned into a zombie, then the undead win.

Zombie Apocalypse Tactical Laser Tag is a 4 out of 5 experience on our "Fear Factor Scale". It is suitable for children 8 and up, and we recommend the earlier time slots for younger audiences. There are a lot of jump scares, and no, the zombies can't touch you.

Don't forget to buy your tickets, grab your battle buddies, and fight the undead every weekend in October!
